GERMAN ARMY OF 400,000 BEGINS DRIVE THROUGH SERBIA TO AID OF TURKS; TERRIBLE STRUGGLE IS RAGING IN RUSSIA AND ON WESTERN FRONT

ALLIES CONFIDENT THAT GREECE WILL STAND PAT IN SPITE OF CRISIS

Zaimis Accepts Difficult Task for Forming Coalition Cabinet, to Take Charge of Situation.

GERMANY ANNOUNCES INVASION OF SERBIA

Kaiser's Forces Resume Great Artillery Duel in West While Making Terrific Effort for Capture of Dvinsk.

London, Oct. 7. (11:30 p. m.)—An official dispatch received at London today states that the Austro-German armies concentrated against Serbia comprise a total of 100,000 men.

Berlin, Oct. 7. (Via London, 4:06 p. m.)—Renewed fighting of great severity in the Champagne was reported today in the announcement from army headquarters. Six massed infantry attacks by the French northwest of Soissons were beaten down, the war office states, with very heavy losses to the attackers.

Announcement also was made that German troops which have been attempting to capture the important Russian city of Dvinsk have penetrated Russian positions before the city over a width of about three miles.

Berlin, Oct. 7. (Via Wireless to Sayville)—Bulgaria awaits today a declaration of war from the allies," says a dispatch from Embassies to the Balkan Anziger, as given out here today by the Overseas news agency. "Premier Radovitsch conferred with the German, Austro-Hungarian and Turkish diplomatic representatives while the British chargé d'affaires on calling, was received by the first secretary. The allies are much disappointed."

Genoa, Oct. 7. (Via Paris, 3:55 p. m.)—Information reached Geneva by way of Munich today from a source which is regarded as reliable, that Germany will issue a decree for general mobilization within the next twelve hours.

New York, Oct. 7.—The London office of the Associated Press was advised today by cable that thousands of words of dispatches from its correspondents in Sofia and on the lines in the western battle front are being withheld by the British censors.

London, Oct. 7. (11:30 p. m.)—The allies, having broken off diplomatic relations with Bulgaria, now are moderately expectant of that nation's active participation in the war on the side of the central powers.

Her king and the late leader of his government being at odds, Greece is forming a coalition cabinet, pending the conclusion of which her policy will be obscure. There are no military gains in England, however, that she will incorporate in any war with Bulgaria. The latter's chief hope in the summer impeded the landing of allied troops at Salonic and the fact that those for us are on Greek soil is considered the best guarantee that Greece ultimately must align herself with the central powers with which President Zaimis is in sympathy.

Chamagne in the west and Dvinsk in the east are now the scenes of the struggle most likely to produce decisive results. The Germans are advancing in concentrations against Dvinsk, evidently bent on a supreme effort to take the city. The Russians, however, are delivering hard blows all along the line, and the British and French press agrees to the general Russian "theory" for which the decision of the allies in the west are given credit.

Capture by the French of the village and hill of Tithou is a success of considerable local importance. The hill, although less than 200 feet high, was one of the most important French positions in that sector.
